Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The request filed on September 4, 2003 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/196161 is acceptable and a CPA has been established. An action on the CPA follows.
2. Applicants' amendment filed September 4, 2003 is acknowledged and has been entered. Claims 1 and 6 have been amended. New claims 24-32 have been added. Claims 1-8 and 24-32 are now pending in the present application.
3. It is noted that SEQ ID NO: 1-10 are amino acid sequences while SEQ ID NO: 11-17 are nucleotide sequences. Applicants should insure that the claim language corresponds appropriately. Applicants' have stated that two of the original claims were directed to specific sequences and that as such they should have been subject to search. "A search for the specific sequences originally claims, 1 and 3, should have turned up any prior art that would apply to any of the sequences set forth herein and now being claimed as limitations on the material of the claimed vaccine. Therefore, the instant amendment does not present new issues and should be entered. As there is no prior art regarding the instant claimed sequences, all claims should now be found to be allowable." (see p. 5, para. 3 of 9/4/03 Amendment and Response). It is noted that the original claims were subject to a Restriction Requirement (see paper mailed March 6, 2000). Original claims 22 and 23 recited SEQ ID NO: 3 and 1 respectively. Applicants did not elect these inventions and the election was made without traverse. The claims (1-

8) of the originally elected invention (vaccine) did not recite any specific SEQ ID NO.

Election/Restrictions

4. This application contains claims directed to the following patentably distinct species of the claimed invention: SEQ ID NO: 1-17, see all claims. Applicants should elect one SEQ ID NO for examination.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions

unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to N. M. Minnifield whose telephone number is 703-305-3394. The examiner can normally be reached on M-F (8:00-5:30) Second Friday Off.
